

TYING MACHINES

AiC's tying machines are:

- Highly reliable;
- Fastest tying system available on the market;
- Able to perform tight and loose ties with single, double turns.

ATS

INDUSTRY 4.0

PRODUCT PORTFOLIO:

- ✓ SQUARE STACKS
- ✓ ROUND BUNDLES
- ✓ SUB BUNDLES

THE ADVANTAGES OF OUR TYING MACHINES:

The fastest tying cycle available on the market:

6.8
seconds for a complete double turn tying

Reduced
maintenance costs, downtime and production losses

Smooth integration
in rolling mill layouts due to optimized dimensions and complete supply of systems

The latest technologies, automatic setup and operations allow to **simplify** routine operations

All Tying Machines are fully tested before shipment to site. This reduces the start up time and costs.
